At your inquiry, we report that information concerning the fates of American pilots by aircraft serial number, which were turned over within the frameworks of the understanding with the Vietnam and Korean sides for study in the USSR, was not found in the examined documents of the Ministry of Civil Aviation and the Main Administration of the Civil Air Fleet archival fonds.

For this interesting matter we recommend that you return to the Air Force Headquarters archive and the RF Ministry of Defense Central archives.

Esteemed Vladimir Petrovich'

We report that there is no information on the loss of American citizens during and after World War II in documents of the Main Administration of the Civil Air Fleet under the auspices of the USSR Council of Ministers, Ministry of Civil Aviation, which are stored in the DVT archives.

Presently, work is being conducted in the DVT archive to reveal information on GVF personnel lost and missing in action. This work is being realized by the Department of History for Civil Aviation of the Moscow State Technical University of Civil Aviation (125838, Moscow, GSP-47, Kronshtadskij Bul'var, 20, Tel. 459-04-94, Department Chief Dragovoz, Pavel Kirillovich) with the purpose of publishing a "Memoirs" on the occasion of the 50th year of Victory Day.

Fragmentary information on passengers (as fundamental representatives of the Ministries of Defense, Communications) who were on board planes, missing in action, is also found in documents of Front Air Units of the GVF. There should be complete volumes of information in the archives of the indicated department.

At the same time, we report that documents on the investigation of accidents for planes and helicopters of the GUGVF, MGA for 1929-1969 are kept in the Russian State Archive of the Economy, and from documents on aviation incidents for 1970-1991, kept in the DVT archive, no interesting information is found.
